## GROOMING WAIVER

There are a variety of skin and coat problems that can occur after the coat is cut into a close shave. This is most often found in dogs with a thick undercoat or who are matted. Some of these issues include hair loss, texture changes, skin discoloration, sunburn and/or itching. We do not recommend shaving the coat, and therefore ask that you authorize our Groomer to shave down your pet.

Infected ears will not be cleaned or plucked during grooming. We recommend seeing a licensed veterinarian for proper diagnosis and medication.

Anal Glands will only be expressed under the Owners consent. There are slight risks involved and it is also recommended to be done by a veterinarian.

By signing this waiver I authorize and do not hold liable Mutt Hutt, Inc. and all related employees to perform one or all of the above services or any other services requested but not listed.
